

# Pull Stop Box™

Saves money | Installs quickly | Visually appealing | Reduced Liability | Easy to use | Versatile

Available from

 **LynCar**

### VISUALLY APPEALING

Clean unobtrusive look with no ugly stub outs or angle stops protruding from the wall

### INSTALLS QUICKLY

Rough in and trim out times are 30 seconds to one minute each

### REDUCES LIABILITY

The valve is installed inside the wall prior to the system test, eliminating leaky compression valves

### SAVES MONEY

One Pull Stop Box™ replaces a stub out, mounting bracket, valve and escutcheon

### EASY TO USE

The simple, intuitive push/pull action of the Pull Stop Box™ starts and stops the flow of water easily

### VERSATILE

The Pull Stop Box™ can be mounted in any direction and even share the same stud side-by-side with another Pull Stop Box™

Patent Pending.
